

HORIZON[®]
TECHNOLOGY

**ELITE PERFORMANCE
IS ON THE HORIZON.**

The next generation of HORIZON[®] TECHNOLOGY is better than ever, with even more information at your fingertips on the expanded display. This onboard intelligence system is designed to enhance productivity and fuel efficiency with optimized performance in a wide range of mowing conditions.

LETS YOU CHOOSE THE PERFORMANCE MODE to match the mowing conditions and reduce fuel consumption.

ALERTS YOU WHEN SERVICE IS NEEDED. Display tracks hours of operation until service is due and provides advanced machine health monitoring.

EXTENDS CLUTCH LIFE by engaging and disengaging the clutch at optimal RPMs.

ENHANCED CAPABILITIES

Horizon Technology now features a larger display screen with plain text error codes and added functionality. Operators can set defined maintenance reminders, monitor machine health and track machine hours by property.

DEFINED PERFORMANCE MODES

The engine speed is controlled by new push-button controls to provide three defined performance modes:

LOW MODE
Helps reduce deck packing and discharge clumping in wet conditions.

ECONOMY MODE
Excellent performance in typical conditions with reduced fuel consumption, emissions, noise and wear.

MAX MODE
Maximum power for the most demanding conditions.

HORIZON TECHNOLOGY IS AVAILABLE ON SELECT Z MASTER[®] 6000 AND 7500 SERIES MODELS:

- 72946 60" (152.4 cm) 38 hp Kohler[®] Command PRO[®] EFI
- 72969 60" (152.4 cm) 29 hp Kawasaki[®] FX EFI
- 72947 72" (182.9 cm) 38 hp Kohler Command PRO EFI
- 72072 72" (182.9 cm) 37 hp Yanmar Diesel
- 72074 72" (182.9 cm) 37 hp Yanmar Diesel RD
- 72096 96" (243.8 cm) 37 hp Yanmar Diesel RD
- 72028 60" (152.4 cm) RD 25 hp Yanmar[®] Diesel
- 72029 72" (182.9 cm) RD 25 hp Yanmar[®] Diesel
- 74090 96" (243.8 cm) 38 hp Kohler Command PRO EFI

See pages 13 and 17 for specifications.
